**WHERE  
ARE YOU?  
WHERE  
YOU WANT  
TO REACH?**

## ADMISSIONS OPEN FOR BCA

**Want to be a professional..?**

**Come, join us and build a bright and Prosperous career."**

After passing PU, C. B is crucial to decide the next step for making bright future. It is very important and it is also critical. In this view, if the objective of student is to select a professional course, a rewarding career then choosing a job oriented course is one of the important step to put forward to make your dream true.

Most employers, across the globe prefer candidates with productive and constructive graduate degree like Bachelor of computer applications (BCA) over any other degree. This leads to better employment opportunity in corporate sector and also chance to become successful entrepreneur in the society. Soft skills, personality development activities, effective communication skills & are the essential qualities required for multinational companies.

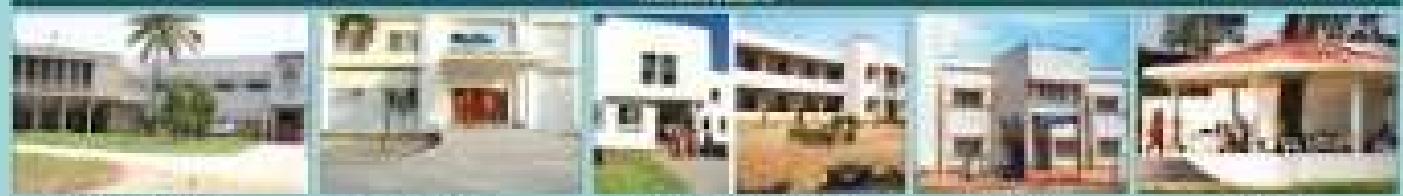

We teach and train effectively all the above skills to the students to get ready for facing & solving challenges and problems in corporate sector. In addition to these, we train leadership qualities, team building, negotiation skills, conflict management and others through series of activities. Students with these skills are not only assured of a well paid job but also a good career progress in future.
